

FORMER GATES FOUNDATION VACCINE SCIENTIST CALLS FOR HALT TO VACCINATIONS, PREDICTS “WIPE OUT” OF POPULATIONS

🕒 MARCH 13, 2021 👤 PUBLIUS 💬 21 COMMENTS

A former Bill and Melinda Gates Foundation Senior Program Officer in Vaccine Discovery, former Head of the Vaccine Development Office for the German equivalent of the CDC, and university professor, [has released an open letter](#) to the scientific community and to the world warning that the present mass vaccination program may “wipe out large parts of our human population.”

[Dr. Geert Vanden Bossche](#) writes in his [Open Letter](#), which he submits to the world science community for open discussion:

“...it’s becoming increasingly difficult to imagine how the consequences of the extensive and erroneous human intervention in this pandemic are not going to wipe out large parts of our human population. One could only think of very few other strategies to achieve the same level of efficiency in turning a relatively harmless virus into a bioweapon of mass destruction...”

[Dr. Bossche](#) says the decision to publish the [letter](#) was “agonizing” and that he understands he is putting “all of my reputaton and credibility at stake.” He said he expects other scientists to do the same if their consciences dictate.

The new technology in vaccines, which has never before been tried on people, mRNA technology, has so far resulted, according to a reporting platform run by the CDC, in [over 1,600 deaths](#) possibly, but not for certain, related to the vaccinations, and nearly 20,000 “adverse events.”

The system is the [CDC's Vaccine Adverse Events Reporting System](#). The pharmaceuticals industry regularly releases statements asserting that there is no positive, confirmed causal relationship between a death and a vaccine, although many deaths involve people whose families [report were healthy](#) and had no underlying issues. One of the best resources for following adverse events is Barbara Loe Fisher's website [The Vaccine Reaction](#).

Separately, different groups of doctors and scientists have issued statements warning of the unnecessary risk of the vaccines for a [99.4%](#) to [99.8%](#) survival rate virus, which is similar to normal flus. For most age ranges, one has a greater chance of dying of flu than of COVID (chart below).

Dr. Sherri Tenpenny, a leading opponent of drugs including vaccines which have not been subject to long-term animal trials, predicts that the true magnitude of adverse effects of the present injections will become devastatingly apparent in 6 months to a year after the first shots were given ([video below](#).)

With over 1,600 possibly related deaths recorded by the CDC as of mid-March, and tens of thousands of serious reactions, Dr. Tenpenny asks "in how many industries do you know where these products would still be on the market?"

Are the Five Governors Responsible for Jump-Starting the Pandemic?

As NY Governor Andrew Cuomo and four other governors come under fire for transferring COVID patients into nursing homes, it is being asked if the 2020 death toll would have been as high as reported, had the policies not been implemented.

Most damning of all, it is clear that Cuomo, governor of the state hardest hit, was asked to send the COVID patients to the nearly [empty, 2,500 bed Jacob Davits Center](#), instead of to nursing homes, but permission was denied. (See: [“Cuomo Denied Pleas to Put COVID Patients into Javits Center, Instead of Nursing Homes, Assuring Carnage.”](#))

Former Bush Sr. Administration Official and Investment Banker Catherine Austin Fitts Argues a Master Plan is in Progress to Destroy Small Business, Consolidate Wealth

To the question of a rhyme or reason for what might be puzzling policies to some, investment banker and former Assistant Secretary of Housing and Urban Development under President George HW Bush, Catherine Austin Fitts, argues that a controlled collapse of the economy is under way, made possible by policies enabled by pandemic.

Fitts sees a drive by elites for a mass surveillance and control society in which mandatory vaccination ID or electronics serve as the foundation for control of movement, and all information on every person is consolidated into one device, including purely digital currency and payment systems.

In the below video, Fitts is interviewed by [Robert F. Kennedy Jr.](#), nephew of the slain president and founder of [Childrens Health Defense](#) (CHD.) Although acknowledging the benefits of some vaccines, CDH questions the number of vaccines presently being required by schools, and the need for many of them.

CDC also questions the incestuous relationship between Big Pharma, government regulatory agencies, and the medical establishment including prestigious medical journals.

Below "Season 2, Episode 11 of "TRUTH" with Robert F. Kennedy Jr., featuring Catherine Austin Fitts"

Below: Planet Lockdown interview with Catherine Austin Fitts
([View at Bitchute](#))

In 2011 the editor of *The Lancet* Richard Horton, one of the world's most prestigious medical journals, [wrote scathingly](#):

“Journals have devolved into information laundering operations for the pharmaceutical industry.”

A documentary which delves into this deeply is [“The Illusion of Evidence-Based Medicine”](#) (below)

One person regularly mentioned by both Kennedy Jr. and Fitts is Bill Gates, who has a record of [funding unethical vaccine trials](#) on unsuspecting poor in the Third World. RFK Jr. summarizes his evidence against Gates' history in the Third World in his article: [“Gates’ Globalist Vaccine Agenda: A Win-Win for Pharma and Mandatory Vaccination.”](#)

Although Gates regularly feigns outrage over “crazy” and “evil” [“conspiracy theories” against him](#), his fingerprints are seen on a surprisingly broad array of levers, all with the effect of holding the official narrative together, from his [funding of Neil Ferguson](#), the professor whose [paper was used by governments](#) to justify lockdowns, to a [study on masking](#) by University of Washington’s Institute of Health Metrics and Evaluation (IHME.) Gates also funded the invention of a [high-tech tattoo](#) created at MIT which can carry a person’s vaccination and other personal information.

The IHME, which concluded masks save lives, is [heavily funded by Gates](#) in his home state of Washington.

It was the IHME study which allowed Dr. Anthony Fauci to immediately start reciting that masks, a constant reminder and badge of compliance, would save [130,000 lives](#). That study was funded by Bill Gates.

Despite his astonishment that people would create conspiracy theories about him, Gates has been leading the drive for universal digital IDs and “immunity passports” which would tag [every human on the planet](#), except the elite, into a database.

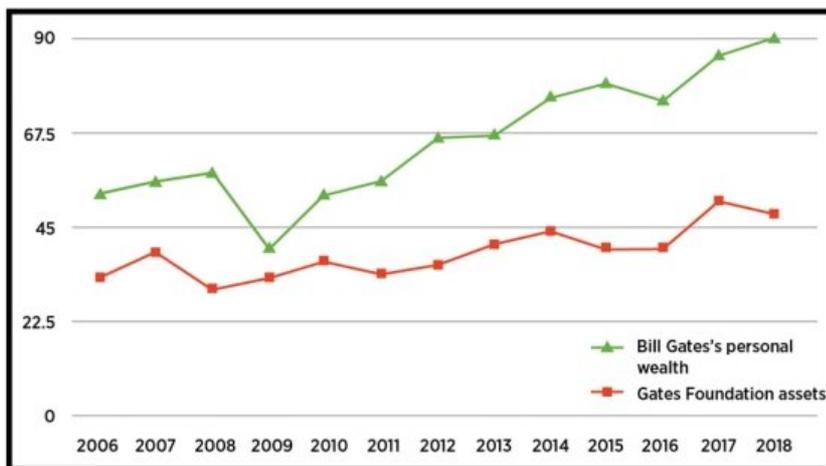

Gates is the world’s number one salesman for the narrative: “lockdowns and masks save lives, no normal life before mass vaccination.” It is a recipe enforcing misery and offering mass vaccinations and digital ID/passport as the only way out.

The World Health Organization (WHO,) which leads the coronavirus response focusing on lockdowns, masks, and vaccination, receives as much as [13% of its funding](#) from one private donor, Bill Gates. In 2020 the Gates donation surpassed that of the US government.

Despite a carefully crafted image that Gates is a late-life billionaire who is now giving away his fortune for the world's good, Gates' net worth has been steadily climbing as his giving has increased, as it is [strategically placed](#), tax free, to help boost his investments.

THE CHARITY PARADOX

Though the Gates family and the Gates Foundation have given away tens of billions of dollars, their assets have continued to grow, raising questions about the long-term influence of billionaire philanthropy in American politics.

Despite his purported concern for the world's health, Gates is an avid [investor in Monsanto](#), whose blockbuster pesticide [Roundup is a confirmed carcinogen](#) and has been outlawed in over two dozen countries. Gates' relentless focus on vaccines drains funding for far more cost-effective, but less profitable, measures against Third World disease, like clean village water and sanitation.

In a strange moment last year, Gates said cryptically that there will be other pandemics after COVID, and with an bizarre smirk, said the next one **"WILL get attention."**
